

uCertify

Course Outline

Object-Oriented Security Scripting

19 May 2024

1. Pre-Assessment
2. Exercises, Quizzes, Flashcards & Glossary
Number of Questions
3. Expert Instructor-Led Training
4. ADA Compliant & JAWS Compatible Platform
5. State of the Art Educator Tools
6. Award Winning Learning Platform (LMS)

7. Chapter & Lessons

Syllabus

Chapter 1: Review of Python Data Types and Concepts

Chapter 2: Recursion

Chapter 3: Searching and Sorting

Chapter 4: Network Automation

Chapter 5: Cybersecurity

Chapter 6: Python for Network Forensics

Videos and How To

8. Practice Test

Here's what you get

Features

9. Live labs

Lab Tasks

Here's what you get

10. Post-Assessment

1. Pre-Assessment

Pre-Assessment lets you identify the areas for improvement before you start your prep. It determines what students know about a topic before it is taught and identifies areas for improvement with question assessment before beginning the course.

2. Exercises

There is no limit to the number of times learners can attempt these. Exercises come with detailed remediation, which ensures that learners are confident on the topic before proceeding.

3. Quiz

Quizzes test your knowledge on the topics of the exam when you go through the course material. There is no limit to the number of times you can attempt it.

4. flashcards

Flashcards are effective memory-aiding tools that help you learn complex topics easily. The flashcard will help you in memorizing definitions, terminologies, key concepts, and more. There is no limit to the number of times learners can attempt these. Flashcards help master the key concepts.

5. Glossary of terms

uCertify provides detailed explanations of concepts relevant to the course through Glossary. It contains a list of frequently used terminologies along with its detailed explanation. Glossary defines the key terms.

6. Expert Instructor-Led Training

uCertify uses the content from the finest publishers and only the IT industry's finest instructors. They have a minimum of 15 years real-world experience and are subject matter experts in their fields. Unlike a live class, you can study at your own pace. This creates a personal learning experience and gives you all the benefit of hands-on training with the flexibility of doing it around your schedule 24/7.

7. ADA Compliant & JAWS Compatible Platform

uCertify course and labs are ADA (Americans with Disability Act) compliant. It is now more accessible to students with features such as:

- Change the font, size, and color of the content of the course
- Text-to-speech, reads the text into spoken words
- Interactive videos, how-tos videos come with transcripts and voice-over
- Interactive transcripts, each word is clickable. Students can clip a specific part of the video by clicking on a word or a portion of the text.

JAWS (Job Access with Speech) is a computer screen reader program for Microsoft Windows that reads the screen either with a text-to-speech output or by a Refreshable Braille display. Student can easily navigate uCertify course using JAWS shortcut keys.

8. State of the Art Educator Tools

uCertify knows the importance of instructors and provide tools to help them do their job effectively. Instructors are able to clone and customize course. Do ability grouping. Create sections. Design grade scale and grade formula. Create and schedule assessments. Educators can also move a student from self-paced to mentor-guided to instructor-led mode in three clicks.

9. Award Winning Learning Platform (LMS)

uCertify has developed an award winning, highly interactive yet simple to use platform. The SIIA CODiE Awards is the only peer-reviewed program to showcase business and education technology's finest products and services. Since 1986, thousands of products, services and solutions have been recognized for achieving excellence. uCertify has won CODiE awards consecutively for last 7 years:

- **2014**

1. Best Postsecondary Learning Solution

- **2015**

1. Best Education Solution
2. Best Virtual Learning Solution
3. Best Student Assessment Solution
4. Best Postsecondary Learning Solution
5. Best Career and Workforce Readiness Solution
6. Best Instructional Solution in Other Curriculum Areas
7. Best Corporate Learning/Workforce Development Solution

- **2016**

1. Best Virtual Learning Solution
2. Best Education Cloud-based Solution
3. Best College and Career Readiness Solution
4. Best Corporate / Workforce Learning Solution
5. Best Postsecondary Learning Content Solution

6. Best Postsecondary LMS or Learning Platform
7. Best Learning Relationship Management Solution

- **2017**

1. Best Overall Education Solution
2. Best Student Assessment Solution
3. Best Corporate/Workforce Learning Solution
4. Best Higher Education LMS or Learning Platform

- **2018**

1. Best Higher Education LMS or Learning Platform
2. Best Instructional Solution in Other Curriculum Areas
3. Best Learning Relationship Management Solution

- **2019**

1. Best Virtual Learning Solution
2. Best Content Authoring Development or Curation Solution
3. Best Higher Education Learning Management Solution (LMS)

- **2020**

1. Best College and Career Readiness Solution
2. Best Cross-Curricular Solution
3. Best Virtual Learning Solution

10. Chapter & Lessons

uCertify brings these textbooks to life. It is full of interactive activities that keeps the learner engaged. uCertify brings all available learning resources for a topic in one place so that the learner can efficiently learn without going to multiple places. Challenge questions are also embedded in the chapters so learners can attempt those while they are learning about that particular topic. This helps them grasp the concepts better because they can go over it again right away which improves learning.

Learners can do Flashcards, Exercises, Quizzes and Labs related to each chapter. At the end of every lesson, uCertify courses guide the learners on the path they should follow.

Syllabus

Chapter 1: Review of Python Data Types and Concepts

- Introduction
- Data Types
- Control Statements
- Object-Oriented Programming
- Modules, Packages, and File Operations
- Error Handling
- Summary

Chapter 2: Recursion

- Introduction
- Illustrating Recursion
- Recursion Run Amok
- Types of Recursion
- Eliminate Tail Recursion
- Summary

Chapter 3: Searching and Sorting

- Introduction
- Searching Algorithms
- Sorting Algorithms
- Compare Sorting Algorithms
- Python's Built-In Sorting Functions
- Summary

Chapter 4: Network Automation

- Introduction
- Types of Network Automation
- Network Automation Tools
- Compare Network Automation Tools
- Best Practices for Network Automation
- Summary

Chapter 5: Cybersecurity

- Introduction

- Importance of Cybersecurity
- Importance of Python in Cybersecurity
- Python Libraries for Cybersecurity
- Summary

Chapter 6: Python for Network Forensics

- Understand Network Forensics
- Use Dshell for Investigation
- Use Scapy for Investigation
- Summary

Videos and How To

uCertify course includes videos to help understand concepts. It also includes How Tos that help learners in accomplishing certain tasks.

MINUTES

11. Practice Test

Here's what you get

30

PRE-ASSESSMENTS QUESTIONS

30

POST-ASSESSMENTS QUESTIONS

Features

Each question comes with detailed remediation explaining not only why an answer option is correct but also why it is incorrect.

Unlimited Practice

Each test can be taken unlimited number of times until the learner feels they are prepared. Learner can review the test and read detailed remediation. Detailed test history is also available.

Each test set comes with learn, test and review modes. In learn mode, learners will attempt a question and will get immediate feedback and complete remediation as they move on to the next question. In test mode, learners can take a timed test simulating the actual exam conditions. In review mode, learners can read through one item at a time without attempting it.

12. Live Labs

The benefits of live-labs are:

- Exam based practical tasks
- Real equipment, absolutely no simulations
- Access to the latest industry technologies
- Available anytime, anywhere on any device
- Break and Reset functionality

- No hardware costs

Lab Tasks

Review of Python Data Types and Concepts

- Using Arithmetic Operators
- Using Assignment Operators
- Using String Methods
- Using Comparison Operators
- Using the if Statement
- Using the while Statement
- Using the for...in Loop
- Creating a Method for a Class
- Rectifying AttributeError
- Rectifying NameError

Recursion

- Computing the Factorial of a Number Using Recursion
- Implementing Recursive Binary Search
- Printing a Fibonacci Sequence Using Recursion
- Computing the Sum of a Sequence
- Reversing a String Using Recursion

Searching and Sorting

- Implementing Linear Search
- Implementing Insertion Sort
- Implementing Selection Sort
- Implementing Bubble Sort
- Implementing Heap Sort

- Implementing Merge Sort
- Implementing Quick Sort
- Implementing Bucket Sort
- Implementing Radix Sort
- Using Python's Built-In Sorting Function

Network Automation

- Using the paramiko Tool
- Using the ansible Tool
- Using the telnet Library

Cybersecurity

- Using the nmap Library
- Finding All Occurrences of a Pattern
- Using the re.compile() Function
- Splitting a String
- Using the re.sub() Function
- Using the socket Library

Python for Network Forensics

- Using the scapy Module

Here's what you get
